room until 11.25 o'clock. In the meantime Mrs. Lieberman, who had been taken to the Criminal Court Building from the Tombs at 10.15 o'clock, and had been gaurded in the prisoner's pen of the General Sessions Court, was in a state of nervousness bordering on hysteria. Two women who devote their lives to missionary work in the City Prison, tried in vain to comfort her. "I am innocent," she kept repeating ever and over again as she wailed and sobbed aloud. She sent for her lawyer, Abraham Levy, and to him she again declared:
"I am innocent."

"I am innocent. So help me God, I am innocent."

Separated from Mrs. Lieberman was Max H. Grauer. He was as white as a sheet of paper, and under his big, gray eyes were purple circles, adding to his ghastly appearance.

Outside in the corridors two of Mrs. Lieberman's brothers—the two who tried to commit suicide when she was convicted—and a number of their friends paced back and forth and tried many ilmes to get into the place where Mrs. Lieberman was sitting in agony awaiting the arrival of Judge Martine.

Some of the daughters of Grauer were also in the court-house, but they, as well as the others, were excluded from the court-room, so far as they were known.

It was 11.45 o'clock when Mrs. Lieberman was called to the bar of the court for sentence. She was led in weeping bitterly, and supported by a court of ficer on one side and one of the women who had tried to comfort her on the other. She sank into a chair and cried during all the time Counsellor Levy was making the customary motions for a new trial, and arrest of judgment, and while he made a touching and eloquent plea for mercy for her.

Judge Martine spoke of her crime as an award one, but mid that he looked upon her as simply a client of the gang

Due to Veglect, Says Brady.

The walls had been torn down as far as the fourth story, when the men at work on that floor heard a rumbling sound and the floor began to sink beneath them.

A rush was made for the stairway, but before it could be reached the floor, laden with tons of debris, gave way. The weight caused the beams on the third floor to give way and it, too, fell, carrying away the supports of the second and first floors and depositing the enormous mass of bricks, girders and mortar, with its human accompaniment, in the cellar.

The crash was beard block.

Due to Neglect, Says Brady.

P. J. Brady, Superintendent of Buildings for New York City, inspected the Weecked building at 3 o'clock this afternoon. He was accompanied by Thomas Galligan, the contractor, who is to remove the debris. After inspecting the building, Mr. Brady said:

"If the planks of the flooring had been taken out, leaving only the scaffolding, the debris could have been thrown downwards into the cellar and the accident would not have occurred.
